People and planning

Change management

Project setup, PMO and governance services

Digital transformation programmes

Product selection and proof of concept

Full scale implementation

Vendor Management

System upgrades, replacements or improvements

Common problems we help solve

Distressed or failed projects

We specialise in recovering distressed projects with a seasoned team of recovery experts. Our agile approach ensures rapid recovery, cost control, and restored stakeholder confidence.

Lack of market perspective

We prevent project delays and cost overruns by guiding you through initial decisions. Our teams help with business case development, product selection, and pilot studies for success from the start.

Retail eco-system complexity challenges

We handle end-to-end integration for POS, storefront, ERP, inventory, WMS, OMS, PIM, and CRM systems. From scoping to go live, we guide you through the process.

Poor project governance

We offer fresh insights, industry know-how, and risk reduction to ensure your IT programmes meet high standards and align with strategic goals. Plus, we assist with change management for smooth transitions across programmes

Outcomes we deliver

Making an impact for every customer

New revenue stream

New to market ecommerce, supply chain and click & collect platforms deployed to 15 countries.

Increased sales

New customer loyalty mobile app for iOS and Android developed and rolled out within 6 months.

Improved peak performance

System enhancement and improved reporting to resolve critical fulfilment issues.

Reduced time to market

Automation of digital catalogue production reducing the lead time from 9 months to 1 week.

The PMC approach

Enabling innovation and transformation

People first

We recognise that delivery is about people. That's why we embed our teams, ensuring collaboration, skill development and knowledge transfer, leaving you with confident teams and stronger capabilities.

Zero ambiguity

We specialise in very experienced, highly-skilled teams with an open and honest approach. Our partners know that - with us - you can be confident that what we promise you is what we'll deliver.

Independent accountability

PMC is proudly independent, offering tailored, unbiased recommendations to meet your unique needs. We take full Ownership of workstreams and end-to-end delivery, ensuring transparency and accountability.

Pioneers and veterans

Blending pioneers' tenacity with veterans' deep domain Knowledge, our approach embraces innovation while providing the reliability of diverse teams and the assurance of proven expertise.

Our Project Delivery customers

We're proud to work with companies of all sizes, with a depth and breadth of experience across multiple markets.

Together with our clients we form a partnership – working as one team to solve unique and complex delivery problems.

Our customers come back to us time and again for our trusted approach and proven ability to get the job done right.
